

Nomination Form for TAPPI's Internationals Nanotechnology Division Technical Award

Submission Deadline: April 15, 2019

Instructions

Submit the following documents to Lisa Stephens at lstephens@tappi.org.

1. A letter recommending the nominee
2. The completed nomination form
3. A current CV detailing work experience, publications, patents, etc.

Nominee:

Title:

Employer:

Address:

City, State, Zip Code:

Country:

Research Contributions

List the area(s) where the nominee has created new scientific or engineering knowledge related to the nanotechnology of renewable materials. Identify how this new technological development or fundamental knowledge has impacted the research community and/or industry, either directly or indirectly.

Technology Development and Implementation

List the nominee's work and efforts that have been used/adopted by the industry and what kind of impact it has had on the industry.

Impact on People/Community

List how the nominee has had an impact on other people's careers. For academic-based nominees, consider mentoring of students (e.g. # of grad student advised), teaching load and history, and other mentoring activities. For industry nominees, consider thought leadership, and influencing the work of others.

Contributions to TAPPI Nano Division

List how the nominee has contributed and/or has had an impact on the TAPPI Nano Division and related associations. Include offices held, contributions made through conference organization, publications, etc. List activities and contributions (be as specific as possible, indicate year if applicable) made by the nominee.

Publications/Patents

As related to nanotechnology of renewable materials, list the top 10 most impactful publications, also list the top most impactful patents (10 maximum). To assist the review committee, provide a brief statement (1-2 sentences) for each of why/how they were impactful. This can/should be linked back to the descriptions on research contributions, and/or impact on community.

Research Funding

As related to nanotechnology of renewable materials, list the top 10 funded research projects. To assist the review committee, provide a brief statement (1-2 sentences) for each project on why/how they were impactful. This should be linked back to the descriptions on research contributions, and/or impact on community.

Professional Honors Received

List title of any awards, granter and date.
